Hello fellow Certified Injectable DC;

If you acquired your Injectable Nutrients Certification prior to December 31, 2011, the OBCE has mandated that you attend a re-certification class by December 31, 2014.

The OBCE in coordination with the UCA, which is the sponsoring association of the class, need you to complete the following survey in order to learn to which utilizing injectable nutrient procedures Certified DC's are utilizing and to what extent and also which procedures and protocols these Chiropractic Physicians want or need to be reviewed in the Re-Cert. class.

Therefore, please complete the following survey so we can better serve you:

- 1) Are you presently performing IM injections in your practice? Yes No If yes, to what % of your patients ____ % Approx # of these procedures per week ____
- 2) Are you presently performing Trigger Point Injections? Yes No If yes, to what % of your patients ____ % Approx # of these procedures per week ____
- 3) Are you presently performing inter-articular injections? Yes No If yes, to what % of your patients ____ % Approx # of these procedures per week ____
- 4) Are you presently performing IV protocols? Yes No If yes, to what % of your patients ____ % Approx # of these procedures per week ____ For what symptoms, conditions or pathologies? _____

- 5) If you answered "No" to any of the foregoing, please state the procedure and whether you ever did utilize it and why not, now. _____

- 6) If you **never** utilized a procedure above, which ones and why not? _____

- 7) Please circle any of the following you would like have reviewed or demonstrated during the Re-Certification classes coming up this fall:

OSHA requirements; Injectable contraindications; IM & IV supplies and where to purchase; Informed consent & other necessary forms; IM procedures & formulas; Interarticular procedures & formula; Trigger Pt. injection protocol; Osmolarity; IV setup; Blood Chemistry analysis, Dx and related IV procedure & protocol Extended IV formulas for Tx of common symptoms, conditions and pathologies.
